

NAUTICAL COLLECTION

Worthy of the high-seas, this collection features a truss design that stands up to foul weather and can be customized with an array of options and styles and still maintain its robust structure.

MODEL #722 15' DECAGON
NAUTICAL UMBRELLA
(2-3/8" Steel Reinforced Pole)

NAUTICAL CHARM

- Rugged Seaside Gray stain is approved for marine applications
- Extra heavy solid brass decorative boat anchor attaches to oversized positioning pin and chain
- Decorative hemp line circles the canopy, running through solid brass loops at each rib end. (Optional lines available)

UNIQUE FEATURES

- Innovative decagon (10-rib) design increases strength and panel support
- Enlarged top and bottom hub girth accommodates the decagon design
- Dual 3 to 1 ratio Boom Vang pulley system (manufactured by American Holtzkraft) eases opening of the umbrella
- New computer-generated and wind tested truss-like rib design and rib-hub connection increase strength and permit easy replacement of individual ribs on site
- Specially designed air-vent system enhances durability under windy conditions

3 to 1 Boom Vang pulley system
