

# RESORT COLLECTION

Sophisticated design and engineering distinguish these market umbrellas from the competition - a favorite where weather changes without warning.

**MODEL #702** 8' OCTAGON UMBRELLA  
(1-1/2", 2" or 2-3/8" Pole)

**MODEL #702B** 8' OCTAGON UMBRELLA  
WITH ROTATING CANOPY  
(1-1/2" Steel Reinforced Pole)

**MODEL #702C** 8' OCTAGON UMBRELLA  
WITH DOUBLE VENT  
(1-1/2", 2" or 2-3/8" Pole)

## UNSURPASSED QUALITY & STYLE

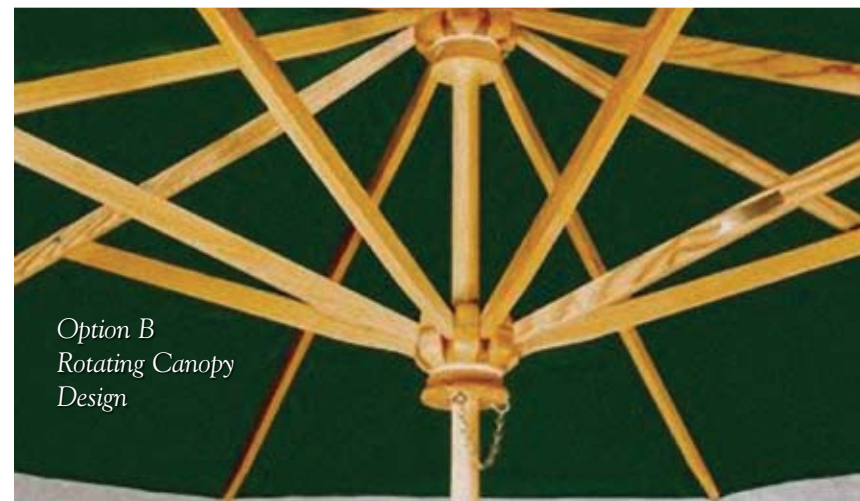

Our original design rotates around the axis of our steel reinforced pole dissipating stress and excess wind through the canopy rotation. This ingenious way of addressing the hours of stress applied to the mechanisms of a market umbrella is protected by our Patent #5020557 and proven with actual performance stress testing. The American Holtzkraft, Inc. rotating canopies have been the source of envy by others in the industry.

No sales pitch is necessary for our Resort Collection, as the backbone of our umbrella line, stands tall against the test-of-time and the changing trends of the future.

## OPTIONAL PATENTED FEATURES

- Rotating canopy, makes the umbrella dependable in most weather conditions
- Double vent feature, allows the air to escape the canopy in strong winds

Fine worldwide resorts and hotels have truly seen the test-of-time and challenges met by this umbrella's unsurpassed success.
